Optimum Internal Medicine and Pediatrics

10044 Hwy 46, Bon Aqua, TN 37025 | (931) 996-4247

6 to 10 Year Visit

Parent and staff instructions - keep with the clinical sheet

Parents / guardians: Complete only the identification, allergies, medicines, and the upper-left Nutrition and Problems / Interval History sections. You may type in the available identification fields, then print. Leave measurements, risk-assessment results, screening scores, examinations, orders, vaccine entries, billing and signatures for staff. Bring **both pages** to the appointment. Do not send completed forms through the website.

Do not give medicine based on this form alone. Printed doses and vaccine sequence numbers on the clinical sheet are preserved workflow entries, not patient-specific orders.

Staff medication verification: Before any dose, verify current weight in kg, age, indication, allergies, product concentration, dose in mg **and** mL, interval, maximum daily dose and contraindications. Document clinician-approved instructions. Preserved numbers do not replace this check.

Age-specific clinical checks

Use an age-appropriate balanced diet rather than a blanket 20-30% fat or 300 mg cholesterol limit; individualize for growth and medical risk.

Car seats: rear-facing until the seat height OR weight limit, then a forward-facing harness to its limit, then a booster until the adult belt fits correctly (often age 8-12). Keep children younger than 13 in the rear seat.

Use standardized age-appropriate behavioral/emotional screening, including anxiety screening beginning at age 8; surveillance checkboxes alone are not a screening instrument.

Staff screening check: Use validated age-appropriate tools, not checkboxes alone: developmental screens at 9, 18 and 30 months; autism at 18 and 24 months; mental/emotional/behavioral screening per current AAP schedule.

Staff vaccine and billing check: Reconcile actual records, age, product, prior doses, minimum intervals and contraindications against current AAP guidance. Verify preserved protocol numbers, including combination-vaccine components. Billing presets are not orders: code actual services and payer rules; COVID-19 administration uses 90480, not 90460/90472. Do not automatically apply modifiers or unit counts.

Sources and version

Clinic revision based on AAP 2026 immunization guidance, current AAP preventive-care guidance and age-specific safety references. Original TNAAP 07/2025 attribution and intentional workflow marks are retained. This clinic revision does not imply TNAAP endorsement.

86580 if administered Z11.1
80061 if adminstered Z13.220
Vaccine codes as marked
Add E/M code if abnormal findings requiring treatment with -25 modifier

Safety
☐ Buckle up! Ride in back seat
☐ Harness to seat limit, then booster; see guide
Belt only when it fits; rear seat until age 13
☐ Bike helmet, street safety
☐ Smoke detectors in home
☐ No smoking in home
☐ Water safety, swimming lessons
☐ Firearm safety
☐ Sunburn prevention

Health
☐ Low fat milk and snacks
☐ Encourage fruits and vegetables
☐ Brush teeth, see dentist
☐ Adequate sleep
☐ Encourage sports, active play
☐ Sports form completed
☐ Age-appropriate fats; see companion ☐
Individualize dietary counseling
☐ Balanced diet; see companion

Social/Behavioral
☐ School adjustment, performance
☐ Sports and hobbies
☐ Limit TV, computer games <2 hrs/day☐
Give choices
☐ Encourage independence
☐ Set limits, provide consequences
☐ Parent supervises peer activities
☐ Privacy, personal hygiene
☐ Puberty changes and questions about sex
☐ Family relationships
☐ Friends and School
☐ Social media, safety settings
☐ Dealing with strangers

Impression
☐ Well Child
☐ Normal Growth
☐ Normal Development
☐ _____

Plan/Referrals
☐ Immunizations current? ☐ Yes ☐ No
☐ DTaP/Td/Tdap, IPV (4th dose on/after 4th bday), MMR, *Varicella (2 doses or hx of dz), HPV
☐ Influenza vaccine
☐ COVID-19 vaccine
☒ Counseling
☐ Cholesterol - Non-fasting Lipid Profile or Fasting Lipid Profile (once between 9 and 11 years)
_____
☐ Lead level if at risk
☐ TB test if at risk
☒ Dental referral at age 6
☐ Supplementation if deficient in fluoride
☒ Hgb (if + menarche or high risk every year)_____
☐ If BMI >85%, follow-up plan
☒ RTC at _____ years
☒ Handouts
☐ Parent declination of treatment _____
☐ Referrals _____

_____ M.D. / P.N.P. / DO / PA

** Required for Kindergarten entry*
